PROFESSIONAL SUMMARY

Senior QA Engineer with 8+ years across the full testing lifecycle for Finance and enterprise applications, currently the sole QA owner for 15+ business-critical features at Cognizant. Strong in UI, API, and performance automation — Selenium, Playwright, TestNG, Postman, Newman, Bruno, and JMeter — integrated into Jenkins and GitHub Actions CI/CD pipelines. Practical adopter of AI-paired testing, using GitHub Copilot and generative AI for test design, data generation, and faster refactoring. Proven impact: cut test-execution time by 40% and sustained zero critical-defect escapes to production.

PROFESSIONAL EXPERIENCE

Senior Associate – QA | Cognizant, Hyderabad

Aug 2023 – Present

- Serve as sole QA owner for 15+ business-critical Finance features, driving test planning, execution, and release sign-off end to end.
- Built and maintain API regression coverage across Postman, Newman, and Bruno, integrating Newman runs into the CI pipeline on every build.
- Introduced GitHub Copilot and generative-AI workflows for test-case generation, synthetic test data, and script refactoring, shortening test-design cycles.
- Lead JMeter performance testing wired into the Jenkins CI/CD pipeline, catching latency and throughput regressions before release.

Quality Test Analyst | Accenture, Gurugram

Jul 2021 – Jun 2023

- Reduced test-execution time by 40% by refactoring the Selenium framework and introducing parallel execution.
- Designed and maintained Page Object Model automation across 15+ features, with enhancements reviewed and approved by client stakeholders.
- Executed API and performance testing, partnering with developers to reproduce and resolve defects ahead of release.

Test Engineer | Infosys, Hyderabad

Jan 2018 – Jul 2021

- Built Java and TestNG automation using Page Object Model and Cucumber BDD for maintainable regression suites.
- Executed automated suites through Jenkins CI/CD and authored 1,500+ manual test cases covering core and edge scenarios.
- Delivered a mobile application for a PSU client two months ahead of schedule while sustaining 7+ story points per sprint.

TECHNICAL SKILLS

Test Automation: Selenium WebDriver, Playwright, TestNG, Cucumber BDD, Page Object Model, Java

API & Performance: Postman, Newman, Bruno, JMeter, Load Testing, Allure Reports

CI/CD & DevOps: Jenkins, GitHub Actions, Git, Maven, Docker, Continuous Integration

AI-Paired QA: GitHub Copilot, Generative AI for Test Strategy, AI-Assisted Test Case Generation, Test Data Synthesis

Testing Types: Functional, Regression, Smoke, Sanity, Performance, Accessibility, End-to-End

Domain & Tools: Finance / Core Banking, Fraud Detection, SQL, JIRA, Elasticsearch Log Analysis

PROFESSIONAL SKILLS

Agile / Scrum, Stakeholder Communication, Team Leadership, Process Improvement

EDUCATION

B.Tech, Information Technology — Vellore Institute of Technology (VIT), Vellore

Graduated Jan 2018
